

# ZERION AND IT: A PARTNERSHIP

iFormBuilder gives users the ability to harness powerful data.

Enjoy the benefits of:

Extensive Security  
A knowledgeable team of Solution Engineers  
Ease of use from beginning to end

## INTEGRATE WITH IN HOUSE SYSTEMS

- Over 1000+ integration options through Zapier
- ThermoWorks for temperature readings
- SQL Server
- ArcGIS Online
- Box and Dropbox

## NO INFRASTRUCTURE COSTS

- Unlimited record, form and media storage
- Zerion hosts all your forms, data and users
- As a subscribing customer we perform maintenance, provide bug fixes and enhancements

## FULL SERVICE AND SUPPORT

- Forms designed and created by our Customer Success Team with your input
- Training, consultation, solution design, solution building, project planning and management
- SaaS Model
- Live Chat and Email support included

## PROFILE AND USER MANAGEMENT

- Create different profiles for each project or Business User
- User access controlled by role-based policies
- Single-Sign on (SSO) with SAML Support for White Label
- Control multiple profiles and share forms between profiles with a dedicated database

## SECURITY

- Data encryption on both client and server
- Dedicated database
- Compliant with HIPAA, FISMA, ISO 9001 and more

## ACCESSING DATA

- View and Managed in our Online Web Portal
- Direct Download (Excel, JSON, XML, RSS, ATOM)
- Robust Enterprise API: Use our API to export data on a schedule
- HTTP POST: Automatically post XML or JSON data to any webhook

## API

- Bi-Direction RESTful API to automate workflows
- CRUD functionality for all resources
- Easier to share and distribute data
- Full Task automation i.e., update option lists, users tables, assigning records based on certain values or location
